Are you a: Graduate / Undergraduate? (delete as appropriate)

Yes / No (delete as appropriate). Any further comments:

Did you sit on the 2006 ball committee? If yes, in what capacity? What do you consider the strengths of your contribution?

Have you helped to plan any other events in the past? If so, please give details. What do you consider were the strengths of your contribution?

How do you imagine the next Corpus ball will be? Please explain your concept and broad outline plans.

--

There are only just over 320 students in Corpus; to sell out to maximum permitted capacity (650) the ball would have to sell as many tickets to non-Corpuscles as to Corpus students. How would you market the ball to people inside and outside Corpus? Or should the aim be to produce an event for just Corpuscles and their guests?

(Treasurer only): Do you have experience of budgeting for an event or production? e.g. play, concert etc. Please expand on this.

Have you worked as part of a team before? Where problems within that team arose how did you deal with them?

Do you foresee any other large time commitments you will have either before the ball, or soon afterwards? E.g. exams...
