

# Another boring manifesto

## Who am I?

Second year BioMed student, named **Artem**, trying to fill the emptiness after his subject ambassador duties end.

I mean, it's Corpus, you must have seen me around, so I will make this manifesto brief.

## Am I suitable?

- ✓ **Peer Supporter** starting in Trinity, trained to help student welfare
- ✓ **Tea Society** experience comes handy for JCR teas
- ✓ **Subject ambassador** proud of College atmosphere, hoping to maintain it
- ✓ **Awareness** of how mental and physical discomfort can sabotage wellbeing
- ✓ **Experience** in supporting people. No proofs/references, obvious reasons

## What can I improve?

Firstly, I believe that the changes should come from JCR's needs and will stay open to any suggestions from fellow members. I do have a couple of things in mind, which could be done better, for instance:

One of the most vital components of college welfare – condoms provision.

- Common condoms are not suitable for a large proportion of people
- Latex-free condoms have been available under request last year
