

CALEB4WELFARE

Why I'd Be Good For Welfare

- I'm present in college and always up for a chat with anyone.
- Good for a cuddle (famously).
- Have been a Fresher's Angel.
- Accessed welfare and needed support from others.
- Peer Mentor at school.

What I Would Do As Male Welfare

- Maintain all my duties as set out.
- Provide resources to college parents so that they can provide welfare at a grassroots level and feel comfortable in helping their college kids.
- Make bystander intervention training more accessible throughout the year.
- Make more of Welfare teas, inviting people along to chat informally about specific welfare issues.
- Set up a more anonymous way of accessing welfare at the first level—possibly some google thing to do this.
- Work with equal opps committee to make sure Welfare events provide for everyone in college.
- Campaign for a third non-gendered Welfare role.
