

FLORENCE FOR ACCESS

WHY I'D BE GOOD:

Subject Ambassador for Materials at Corpus so have experience helping out with the open days and interviews

Materials Ambassador so also have experience of University wide access

Went to a **Northern State School** so can see why access is important and I'm keen to make sure that as many people as possible have the same opportunities we have here, regardless of background/gender

WHAT I'D DO:

Try to live up to RRAA

Try to promote Access events that happen not just in Oxford but also get people involved in **events that happen in schools within their local area**. I think seeing students from their hometown/school that have made it to Oxbridge can be really inspiring for others

Help point people to support once they get here, admissions might stop once people are here, but access should mean giving them the tools to keep going in an often unfamiliar environment
