

Harry Chapman *For Welfare Officer*

Who I am:

Hi! I'm Harry Chapman, and I'm a first-year Materials student, and I would love to be your Welfare officer. I know from my own experiences how much just one person can change everything for the better, and I want to be that person for as many as possible. I also love helping people, and I think it's important to look out for all in your community.

Why I'm Qualified

- At school I was a deputy head, and my duties mainly regarded welfare, from comforting and talking to those who just needed a chat, to referring people to councilors and other school resources if they were in need
- At school I also regularly ran events, from dinners to school elections, so I am good at organizing and budgeting events
- I was also president to several societies at school, which means I'm good at running regular meetings
- I've applied to do the peer to peer support training, to be able to better support my community

My Plans

If elected, I plan to:

- Do welfare visits to the various accommodation blocks, to provide more convenient welfare services to all of corpus
- Conduct a survey of the JCR to see what the JCR believes welfare should be doing, and strive to fulfil these requests
- Make a Wholesome Welfare Wednesday (if the JCR wants it) to be held once a fortnight or so, where people can come and have a games night, or watch a wholesome movie, just to relax mid-week, and also give them an opportunity to discuss welfare in a less direct manner

Please feel free to contact me and ask me anything, either on Facebook, or by phone or email
