

# RYAN FOR ACCESS!

## Why I'll be good:

- I'm organised and reliable, so will be able to manage the different responsibilities of the role
- I understand how important access programmes are for Oxford, to increase the diversity of the student population, having had state comprehensive education in the North-West
- I am good with technology, important for managing and organising the college family system

## What I will do:

- Try to continue the great work done by Russell this year
- Help to increase focus on current students returning to run events in schools in their home area, which will help students attending schools that wouldn't choose to run a visit to Oxford
- Work to make helping with Access events in Corpus easier, to try to make it possible to see what is coming up without having to find the weekly email lost somewhere in your inbox
- Work to make the documents for prospective students on the college/JCR websites clearer and more accessible, with more concise and useful information on planning and budgeting for university. I will also try to find better ways to publicise this resource for students in the process of applying

I'm t-Ryan for a pun here, and I think I'll be Ry-ght for the role
