

Chris for VP

Hello Corpus

For those of you who haven't met me or figured it out from all my emails, I'm a third-year Classicist and your ex-Entz Pres and more excitingly I want to be your next VP (for 8 weeks).

Why I think you should vote for me:

1. My time as Entz Pres has proven that I can organise and publicise JCR events, which is the main role of the VP.
2. I am a committed member of the JCR and my time proposing, amending and voting on motions means I know what the job entails – I believe that Committee experience is especially important for this role and is not something that can be undervalued.
3. As Entz Pres I had an important role to play in FreshCom and the organisation of last year's Freshers Week and so will be able to help the current Committee.
4. I have worked with both JCR and college authorities in multiple capacities already and have a good relationship with both (just ask Lance).
5. I send out banging emails, which is also one of the main responsibilities of VP.
6. VP Phang-Lee rhymes nicely.

What I want to do as VP:

Although it is only a short term of office, I want to increase participation in the JCR, both in terms of attendance at meetings and running for Committee positions. The JCR is meant to represent the entire undergraduate student body and for greater participation to occur everyone needs to feel able to participate. I am going to:

- make myself *even more* available to any students who might have questions about the JCR
- put together a template for submitting motions so that students will not feel as put off by the bureaucracy of JCR democracy

I also want to bring the Executive, the Committee, and the JCR undergraduate body closer together. There is a sense that JCR politics has been and can be seen as cliquey or unrepresentative of individuals' wishes and so by having a more open and transparent Committee I believe that it will be possible to encourage a greater number of students to not only attend meetings but also stand for election next term.

COME HEAR ME TELL YOU THE REST OF MY EXCELLENT THOUGHTS ON WEDNESDAY
NIGHT AT HUSTS!
CHRIS FOR VP!
